- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)

I agree entirely with the principle of addressing the demand side to mitigate the supply factors that result in vulnerable women being exploited and criminalised.

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed

Please explain the reasons for your response.

the idea of not affording women whose situations were addressed by laws that criminalised them and not the men buying sex acts the same approach as those after an act is passed simply because of a calendar date is grossly unfair

4. What is your view of giving people in prostitution the legal right to support?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

without support you are further punishing women who have already been failed by our system/society.

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

6. How should the proposed offence be enforced. Are there any particular techniques which you think should be used or obstacles which might need to be overcome?

I am unclear on current methods but would encourage optimising the potential to prevent acts by utilising digital communications and tracking.

7. Do you believe that there are any new policing powers that would be necessary or beneficial for enforcing this offence?

8. **Please indicate which of the following forms of support and/or services you think should be provided for people in prostitution and exiting prostitution (place an x into the brackets of as many options as you agree with):**

- Exiting support workers
- Drop in services
- Outreach visits to brothels, saunas and other similar premises
- Specialist medical consultations
- Access to drug and alcohol services
- Access to counselling and psychological treatment services
- Specialist housing schemes for women in crisis
- Support to access education, training or work
- Financial advice, debt support etc
- Other (please give details)

Please explain the reasons for your response and provide examples of best practice.

while I would agree with the principle of specialist medical consultations perhaps and holistic health and social care approach would be beneficial and this would require to be resourced.

Social work and given the proportion of people who have been trafficked support to retrieve family links and if people wanted to travel to repatriate.

9. **Please indicate which of the following ways of raising awareness of the new offence you believe to be most effective (choose as many as you agree with):**

- Materials targeted at areas where prostitution is known to occur
- Materials to health and mental health services
- Materials to further education sector
- Inclusion in secondary education (Relationship, Sexual Health, Parenting classes)

Other (please give details)

Please explain the reasons for your response.

I welcomed the approach of Iceland which focused on the 'decommodification' of women perhaps awareness of the new offence should seek to increase the impact it is seeking to achieve.

10. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively?

Please explain the reasons for your response.

legislation is required to criminalise the procurement aspect and decriminalise the role of the women.

Resource implications

11. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

- a significant increase in costs
- some increase in costs
- no overall change in costs
- some reduction in costs
- a significant reduction in costs
- do not wish to express a view

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

by investing in women's wellbeing we have the opportunity to reduce wider costs.

Equalities

12: Any new law can have an impact on different individuals and groups in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation. What impact could this proposal have on particular people if it became law?

Please explain the reasons for your answer and if there are any

ways you think the proposal could avoid negative impacts on particular people.

i can only see positives for women and men who are involved in providing sex acts. the criminalisation of procurement is likely to impact more on men but to me that's an equalising step.

Sustainability

13. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations. Do you think the proposal could impact in any of these areas?

reduced idling of cars...
