YOUR VIEWS ON THE PROPOSAL

1. What is your view of introducing a new criminal offence of paying for sexual services? (This is the only mandatory question)

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Don't want to express a view

Please explain the reasons for your response.

Criminalising paying for sexual services is an essential step in addressing demand, preventing the sexual exploitation of women, and changing the cultural understanding around prostitution. By reducing demand, the numbers of women and girls exploited and trafficked for sex will fall. A recent report by the Special Rapporteur on Violence Against Women and Girls describes how understanding that paying for sexual services is a form of violence against women and therefore criminalising buyers has resulted in the improvement in the situation of prostituted women.

2. What is your view of repealing section 46 of the Civic Government (Scotland) Act 1982: the offence of soliciting for the purposes of prostitution in a public place?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Women who enter the sex industry may have experience of living in care, sexual violence, domestic abuse, drug and alcohol dependency, homelessness and both mental and physical health problems. Experience of the sex industry exacerbates many of these issues and women require support and protection to enable them to recover and exit the industry.

3. **What is your view of repealing previous convictions under section 46 of the Civic Government (Scotland) Act 1982: the offence of soliciting for the purposes of prostitution in a public place?**

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Women who have experienced sexual exploitation, often from a young age, should not have to live with a criminal record preventing them from recovery and moving on with their lives.

4. **What is your view of giving people in prostitution the legal right to support?**

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Ensuring that women who have been sexually exploited will receive support to enable them to recover and build their lives should be a statutory obligation or the services will not be delivered in an environment where non-statutory services are being cut.

5. **What is your view of including provisions for exiting services in the bill?**

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Specialist services for exiting prostitution are essential and guidance should be provided on what this should look like.

6. **How should the proposed offence be enforced. Are there any particular techniques which you think should be used or obstacles which might need to be overcome?**

The police will require training to understand the harms of buying sexual services and the likelihood that men who do so will also engage in other forms of violence against women.

7. **Do you believe that there are any new policing powers that would be necessary or beneficial for enforcing this offence?**

The government should set and monitor centralised performance measures

8. **Please indicate which of the following forms of support and/or services you think should be provided for people in prostitution and exiting prostitution (place an x into the brackets of as many options as you agree with):**

- Exiting support workers
- Drop in services
- Outreach visits to brothels, saunas and other similar premises
- Specialist medical consultations
- Access to drug and alcohol services
- Access to counselling and psychological treatment services
- Specialist housing schemes for women in crisis
- Support to access education, training or work
- Financial advice, debt support etc
- Other (please give details)

Please explain the reasons for your response and provide examples of best practice.

There is a need for a holistic approach to supporting women in prostitution and exiting prostitution given the range of issues that they are dealing with.

9. **Please indicate which of the following ways of raising awareness of the new offence you believe to be most effective (choose as many as you agree with):**

- Internet and social media advertising
- TV advertising
- Print media advertising
- Billboards in public places and transport
- Leaflets to households
- Materials to support and exiting services for people involved in prostitution
- Materials targeted at areas where prostitution is known to occur
- Materials to health and mental health services
- Materials to further education sector
- Inclusion in secondary education (Relationship, Sexual Health, Parenting classes)
- Other (please give details)

Please explain the reasons for your response.

There is need to challenge the widespread promotion of the sex and porn industries, including to young children online and in the media by tackling this at every level.

10. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively?

Please explain the reasons for your response.

Statutory obligations to provide support services, exiting programmes and awareness raising is essential.
Criminalisation of buying sexual services is the only way that demand can be reduced and women protected.

Resource implications

11. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

- a significant increase in costs
- some increase in costs
- no overall change in costs
- some reduction in costs
- a significant reduction in costs
- do not wish to express a view

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

There is likely to be some short term increase in resource implications for the police and local authorities but in the longer term there will be a reduction in costs arising from crime and anti-social behaviour, and the need for drug and alcohol services.

Equalities

12: Any new law can have an impact on different individuals and groups in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation. What impact could this proposal have on particular people if it became law?

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

There will be a positive impact on women as a sex class, with a longer term shift in the way that women are viewed by men. As Black and minoritised women and disabled women are over-represented in prostitution, there will be a positive impact on the protected characteristics of race and disability

Sustainability

13. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations. Do you think the proposal could impact in any of these areas?

By moving towards the abolition of prostitution through use of the Nordic Model, the new law would contribute to developing a just society offering respect and protection to all women but particularly those who are most vulnerable to exploitation.
