YOUR VIEWS ON THE PROPOSAL

1. What is your view of introducing a new criminal offence of paying for sexual services? (This is the only mandatory question)

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Don't want to express a view

Please explain the reasons for your response.

In my view prostitution is unethical and immoral. It is a form of degradation and those who pay for this are facilitating this form of degradation.

2. What is your view of repealing section 46 of the Civic Government (Scotland) Act 1982: the offence of soliciting for the purposes of prostitution in a public place?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Those who call prostitution 'sex work' give a false legitimacy to prostitution. In my view it is not legitimate work - it is unethical, immoral, degrading. Consequently soliciting needs to be continued to be criminalised as this is a deterrent to anyone to enter prostitution.

3. What is your view of repealing previous convictions under section 46 of the Civic Government (Scotland) Act 1982: the offence of soliciting for the purposes of prostitution in a public place?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)

- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Why should someone who disobeyed the law at that time, now be allowed to be cleared of breaking the law, as if they did not break the law at that time?

4. What is your view of giving people in prostitution the legal right to support?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Legally supporting people caught up in prostitution is the right response to help those people to leave this area.

5. What is your view of including provisions for exiting services in the bill?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

'Including provisions for exiting services in the bill' ensures a statutory footing for future scrutiny by the Scottish government.

6. How should the proposed offence be enforced. Are there any particular techniques which you think should be used or obstacles which might need to be overcome?

A fine linked to the financial resources of the individual may be appropriate.

7. Do you believe that there are any new policing powers that would be necessary or beneficial for enforcing this offence?

Not sure.

8. Please indicate which of the following forms of support and/or services you think should be provided for people in prostitution and exiting prostitution (place an x into the brackets of as many options as you agree with):

- Exiting support workers
- Drop in services
- Outreach visits to brothels, saunas and other similar premises
- Specialist medical consultations
- Access to drug and alcohol services
- Access to counselling and psychological treatment services
- Specialist housing schemes for women in crisis
- Support to access education, training or work
- Financial advice, debt support etc
- Other (please give details)

Please explain the reasons for your response and provide examples of best practice.

Access to support however provided should be free. Specialist housing should not be near known red light districts. It should be noted that it is also men, girls and boys that are caught up in prostitution. The adults should not be on the open Electoral Register. Children caught up in prostitution need to be taken into specialist care.

9. Please indicate which of the following ways of raising awareness of the new offence you believe to be most effective (choose as many as you agree with):

- Internet and social media advertising
- TV advertising
- Print media advertising
- Billboards in public places and transport
- Leaflets to households
- Materials to support and exiting services for people involved in prostitution
- Materials targeted at areas where prostitution is known to occur
- Materials to health and mental health services
- Materials to further education sector
- Inclusion in secondary education (Relationship, Sexual Health,

- Parenting classes)
 Other (please give details)

Please explain the reasons for your response.

Any form of advertising is going to be beneficial. However I believe that inclusion in RSHP should be avoided, given that pornography in RSHP is often neutral, yet pornography is a pictorial form of prostitution.

10. **Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively?**

Please explain the reasons for your response.

Legislation is required.

Resource implications

11. **Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:**

- a significant increase in costs
 some increase in costs
 no overall change in costs
 some reduction in costs
 a significant reduction in costs
 do not wish to express a view

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

There are acute costs to society in allowing prostitution - family breakdown, marital breakdown, poor well-being, poor physical and mental health, criminality, poverty, violence. Society will greatly benefit by cutting prostitution.

Equalities

- 12: **Any new law can have an impact on different individuals and groups in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation. What impact could this proposal have on particular people if it became law?**

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

In my view I cannot see any negative impacts on any groups of people. However those who are poor or in financial difficulties are more likely to enter prostitution and consequently those people need help and support.

Sustainability

13. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations. Do you think the proposal could impact in any of these areas?

Any proposal to enhance the well-being of society is bound to bring long term benefits in many areas, including self-respect, health, reduction of criminal activity.
