YOUR VIEWS ON THE PROPOSAL

1. What is your view of introducing a new criminal offence of paying for sexual services? (This is the only mandatory question)

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Don't want to express a view

Please explain the reasons for your response.

I believe that the commodification and purchase of a woman's body contravenes basic human rights and dignity. It should be punishable by law. This includes all aspects of sexual exploitation such as lap dancing, stripping, and all types of pornography.

2. What is your view of repealing section 46 of the Civic Government (Scotland) Act 1982: the offence of soliciting for the purposes of prostitution in a public place?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

I do not believe that women have real choice when they engage in selling or exchanging sex. Most are vulnerable individuals at a low or desperate place in their life when they become involved in the commercial sex industry. Many are coerced and exploited, and once engaged in the practice cannot escape it easily. This should be reflected and understood by society as we try to encourage compassion and care. A criminal justice system that recognises when women are victims of poverty, childhood sexual abuse and substance misuse and not criminals will achieve this.

3. What is your view of repealing previous convictions under section 46 of the Civic Government (Scotland) Act 1982: the offence of

soliciting for the purposes of prostitution in a public place?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

It would be the right thing to do and would acknowledge the traumatic background that created these so-called crimes.

4. What is your view of giving people in prostitution the legal right to support?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

Everyone should have a right to legal support and it should be tailored to their needs as far as possible where witnesses are identified as vulnerable.

5. What is your view of including provisions for exiting services in the bill?

- Fully supportive
- Partially supportive
- Neutral (neither support nor oppose)
- Partially opposed
- Fully opposed
- Unsure

Please explain the reasons for your response.

It would seem to be essential to support women who wish to leave such a voracious industry to provide well-funded services and exit routes. This benefits everyone in society as well as the individual women themselves, reducing poverty, substance abuse and treating trauma encourages a positive

engagement with communities, and if done properly ensures that once women have left the commercial sex industry they feel empowered to stay out.

6. **How should the proposed offence be enforced. Are there any particular techniques which you think should be used or obstacles which might need to be overcome?**

7. **Do you believe that there are any new policing powers that would be necessary or beneficial for enforcing this offence?**

8. **Please indicate which of the following forms of support and/or services you think should be provided for people in prostitution and exiting prostitution (place an x into the brackets of as many options as you agree with):**

- Exiting support workers
- Drop in services
- Outreach visits to brothels, saunas and other similar premises
- Specialist medical consultations
- Access to drug and alcohol services
- Access to counselling and psychological treatment services
- Specialist housing schemes for women in crisis
- Support to access education, training or work
- Financial advice, debt support etc
- Other (please give details)

Please explain the reasons for your response and provide examples of best practice.

9. **Please indicate which of the following ways of raising awareness of the new offence you believe to be most effective (choose as many as you agree with):**

- Internet and social media advertising
- TV advertising
- Print media advertising
- Billboards in public places and transport

- Leaflets to households
- Materials to support and exiting services for people involved in prostitution
- Materials targeted at areas where prostitution is known to occur
- Materials to health and mental health services
- Materials to further education sector
- Inclusion in secondary education (Relationship, Sexual Health, Parenting classes)
- Other (please give details)

Please explain the reasons for your response.

10. Do you think legislation is required, or are there are other ways in which the Bill's aims could be achieved more effectively?

Please explain the reasons for your response.

I think legislation is essential, and implementation of the Bill imperative in setting out where Scotland stands in defending women, outlawing misogyny, and addressing sexual exploitation.

Resource implications

11. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

- a significant increase in costs
- some increase in costs
- no overall change in costs
- some reduction in costs
- a significant reduction in costs
- do not wish to express a view

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

I do not know but would anticipate that like all new legislation there would be some cost. This is acceptable to me as a taxpayer because I can see that in the long-term the benefit to society and the reduction in commercial sex exploitation will save money (health services, child protection services,

criminal justice etc) and improve my fellow citizen's lives.

Equalities

12: Any new law can have an impact on different individuals and groups in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation. What impact could this proposal have on particular people if it became law?

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

I think men will be resistant, but it will ultimately mean a culture shift in their attitudes which can only benefit them in their own behaviours, and self-esteem. Men will grow to understand that women are not for purchase, they are not lesser members of society, and that bodily integrity is a right. I would anticipate a reduction of violence and abuse cutting through to other parts of society – families and public disorder for example which is to be hoped for.

Sustainability

13. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations. Do you think the proposal could impact in any of these areas?

I would imagine that reducing and eradicating the criminal economy and supportively exiting women out of the commercial sex trade would be an improvement to each of the areas mentioned in the question. Women finding themselves in a position to live healthy lives, supporting themselves economically, and nurturing their families is growth that benefits us all.
